01 · THE ESSENTIALS

WHAT YOU NEED

*You don't need an expensive setup to create great UGC.
You probably already own most of it.*

START WITH WHAT YOU HAVE

Every creator starts somewhere. Brands care about how you come across on camera, how clearly you explain the product, and whether you post consistently. None of that depends on expensive gear.

UPGRADE AS YOU GROW

Once you're landing gigs and posting daily, small upgrades make filming faster and your content cleaner. Buy them one at a time, only when you feel the need.

THE THREE ESSENTIALS

01.

Smartphone

Your camera, editor, and posting tool in one. Any recent phone with a good camera and enough storage works.

02.

Laptop

For brand calls, product demos, emails, contracts, invoices, etc. Take every interview on your laptop, not your phone.

03.

Reliable wifi

You'll be uploading video every day across multiple accounts. A steady connection keeps posts on schedule and calls smooth.

START SMALL

Don't wait for the perfect setup. A phone, good light, and a quiet room will carry you through your first campaigns.

02 · OPTIONAL TOOLS FOR FILMING

FILMING TOOLS

Helpful, but not required. Each one makes filming steadier, brighter, or easier.

TRIPOD

01.

- Holds your phone steady so every shot looks clean and intentional.
- Lets you film from different angles without asking for help.

→ [SHOP OUR TRIPOD PICK](#)

LIGHT

02.

- Helpful when natural light isn't enough, like evenings, cloudy days, or darker rooms.
- Keeps your face bright and your look consistent from video to video.

→ [SHOP OUR LIGHT PICK](#)

PHONE MOUNT

03.

- Sticks to a wall, mirror, or desk for quick, hands-free filming.
- Perfect for talking-head videos and filming on the go when a tripod is too much.

→ [SHOP OUR PHONE MOUNT PICK](#)

REFLECTOR

04.

- Made for filming outdoors. Bounces sunlight back onto your face to fill in harsh shadows.
- Improves your lighting and overall video quality without needing power or an outlet.

→ [SHOP OUR REFLECTOR PICK](#)

SELFIE SCREEN

05.

- Film with your phone's higher-quality back camera while still seeing yourself on screen.
- Makes it easy to check your framing, lighting, and expression as you record.

03 · OPTIONAL TOOLS FOR SOUND AND SCALE

AUDIO AND DEVICES

Clear audio keeps viewers watching. Extra phones let you join more campaigns and earn more.

06. MIC

- For clearer, higher-quality audio.
- A wireless clip-on mic connects to your phone and moves with you.

→ [SHOP OUR MIC PICK](#)

07. WIRED HEADPHONES

- A trendy, low-cost alternative to a mic. Clear audio, and they look natural on camera.
- Make sure you get the version that fits your specific phone model.

→ [SHOP APPLE WIRED HEADPHONES](#)

08. SECOND OR THIRD PHONE

- You can run up to 5 TikTok accounts per device. Once you hit 5, add another phone.
- A used or refurbished phone works perfectly. Check Amazon or Facebook Marketplace.
